Here are the Golden Rules for good party-line neighbors:

- If you are using a dial telephone, listen for the steady **humming** sound of the dial tone before you dial.
- Space your calls instead of making a series of them without interruption.
- When you finish talking, replace the receiver properly.

ON A PARTY LINE?

*In an emergency
please give up
the line to your
party line neighbor.*

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Do you wait for the dial tone before dialing? If not, you prevent the equipment from getting you your number. You also impair its ability to serve other users. Waiting for the dial tone helps the service to serve all.

Always keep Receiver
ON THE HOOK..

When you are through talking on the telephone, always see that you place the receiver back on the hook. Otherwise you may miss an important call.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Here's a tip for better dial telephone service. You'll save time . . . and wrong numbers . . . if you wait for the dial tone before you dial. Listen for the steady hummm . . . it's your "go ahead" signal.

(Continued on Page 90)

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be done over . . . does not monopolize the telephone at the inconvenience of others . . . teaches her children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

Good neighbors are considerate party-line users. Remember these party-line golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Ask your youngsters not to monopolize the telephone.
