NEWHALL, CALIFORNIA, FRIDAY, AUGUST 22, 1924

NUMBER 34

"For Each Other—Not Against Each Other."

MUST SMOKE AT HOME ONLY

Supervisor Pass Ordinance In Interest of Fire Control

By the terms of an ordinance now in force considerable restriction is placed on smoking the supervisors desiring to eliminate as much of the fire hazard as possible. The ordinance ends December 1, unless sooner repealed. The provisions of the ordinance are as follows:

Section 1. Declares an emergency.

Section 2. It shall be unlawful during the period of this emergency hereinabove declared, for any person to shoot, fire or discharge any rifle, shotgun, pistol or other firearm upon or onto, or to smoke tobacco or other substance, in any forest land or land covered with brush, grass, or other inflammable material in the county of Los Angeles outside of incorporated cities except as provided in Section 3 hereof.

Section 3. This ordinance shall not apply to the owner of property while on his own land, nor shall it apply to the discharge of firearms by peace officers in the performance of their duties.

Section 4. It shall be the duty of the County Fire Warden to enforce the provisions of this ordinance.

Section 5. Any person violating the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not over five hundred dollars, or by imprisonment in the County Jail for not over six months, or by both such fine and imprisonment.

Section 6. This ordinance shall take effect immediately upon the passage hereof, because the adoption and enforcement hereof is necessary for the immediate preservation of the public peace, health and safety by reason of the fact that the public peace, health and safety is menaced by the dryness and inflammable condition of the vegetation of the County of Los Angeles. It shall remain in effect until December 1st, 1924, unless the board shall, sooner declare that the emergency and the menace to the public peace, health and safety shall have ceased to exist.

Mrs Urfer has sold her interest in the Motor Stage Cafe to James Bemis, who is already on the job, helping to feed the hungry.

Arm Broken by Gas Engine

Archie Baird, the 12 year old son of Mr and Mrs LeRoy Baird, caught his left arm in the belt of a gasoline engine, Saturday afternoon. The arm was broken above and below the elbow, and the hand so badly lacerated that the middle finger was removed. The boy was also cut about head, but not seriously. Dr. McAdory attended the boy's hurts, and he is doing as well as could be expected. The little fellow was helping his brother, Herbert rig up a dynamo. When the belt came off he attempted to replace it while the engine was running, with the above result.

Primary Election Tuesday

Next Tuesday will be a day of considerable importance to the voters, the nominations for superior judges, a trustee, an assemblyman, besides supervisor for this district.

Saugus Items

Mr and Mrs Bob Woodard of the Woodard Cafe, returned from a months vacation in Canada last Friday evening.

Jack, Fred and Condit Haskell were base ball fans Monday, returning with somewhat lost voices.

Mrs Lillian Hendley was the luncheon guest of Mrs Jack Haskell, Monday.

Mr and Mrs J. M. Ray entertained relatives at a delicious repast, Sunday.

Chas. Kellogg, is harvesting his crop of potatoes.

Mrs Ruby Kellogg and Clay Kellogg spent Sunday at the Kellogg home.

This community extends its heartfelt sympathy to Mrs Rosa Crandall Morell, in the loss of her loving husband. Mr Morrell taught school at Devore's the last term, and Mrs Morrell the last three terms has instructed the Saugus grammar grades.

Miss Dorothy Rolls is visiting her cousin at Merced.

(Continued on last page.)

Auto Sense

Although greater efforts than ever before are being made to protect motorists and pedestrians alike on the highways, there are still a large number of unnecessary traffic accidents. Many rules have been suggested, and the public safety department of the Automobile Club of Southern California believes that observance of the old-fashioned "golden rule" will go a long ways toward making the highways safe.

From the many suggestions for safe driving, the following are regarded as so important that they have been called the ten commandments of driving. They are:

1. Drive on the right side of the road; it's just as good as the left.
2. Slow down when approaching a cross road; it is nearly as dangerous as a railroad crossing.
3. Look out for children. You never can tell what they will do, and you are always in the wrong if you hit one.
4. Try to help instead of hinder the traffic officer; he is there for your good and he's got a tough job.
5. Be sure that your "dimmers" really dim; it's no joke driving into a blinding glare, as you probably know.
6. Read and obey the warning signs; they are not put up as ornaments.
7. Do it where it won't kill anybody by yourself.
8. When making minor repairs, stop where your car may be seen from both directions; otherwise you may stop longer than you anticipate.
9. Speeding around corners is a straight route to the hospital. Don't race past a stopped street car. Some day the jury may call it manslaughter.
10. Use discretion. The fact that you had the right of way don't bring anybody back to life, least of all yourself.

New Auto Camp

Mr and Mrs Young have fitted up a fine auto camp just north of Newhall, on the boulevard. They call it Geranium Auto Camp, and have spared no expense in making it a safe and comfortable place to camp. A number of cabins provide for the comfort of those who wish to be indoors, and there is also a community kitchen.

Burbank's Industrial Exhibit

Sponsored by the Burbank Chamber of Commerce and endorsed by civic organizations throughout San Fernando Valley, Burbank will hold a San Fernando Valley Industrial Exposition September 9-13. The purpose of the affair is to establish San Fernando valley-made products in the minds of the people, and thus encourage the factories that have already located and are operating their enterprises in the valley. Incidentally,

Presbyterian Church Notes

The Pastor will deliver the third sermon on "Love's Old Sweet Songs in the Bible," on Sunday morning.

The subject of the Sunday School lesson is, "Jesus Talks with Nicodemus." The Golden Text is John 3-16.

Mrs J. R. Rolls will lead the C. E. meeting. It will open with a splendid song service. Come out and help us in all of these services.

We had two musical numbers last Sunday morning. The first one was given by the choir, and the second by Mr Thompson, of Columbus, Ohio. The special singing was greatly enjoyed by the congregation.

It is thought other enterprises seeking sites where land values are low and living and labor conditions are ideal may be encouraged to locate their plants at some point in the valley. Pledges of co-operation are being received from every city and assurances that the manufacturing plants will be represented by educational exhibits of real merit. The program, which will be by Burbank and Glen

contest for the queen has opened with a bang and is to run through three weeks. Hollywood and Lankershim will join hands in providing features for the second day, and San Fernando and Van Nuys will be entertaining hosts on the third day. Other valley cities will co-operate on the next day, and the closing program will be in charge of the Southern California Secretaries Association, which is to meet at Burbank on that day. Music each afternoon and evening will be by the Burbank Municipal Band.

HIGH TAXES

Don't complain of high taxes, if you mean those imposed by the national government.

Unless you pay income tax, you don't need to care.

If you only pay a small income tax, it will not hurt you.

If you have to pay a big income tax, you have had the money; why kick about doing your share?

We had a big war. They said if we lost, it would cost us countless millions in tribute to Germany.

We're not paying tribute.

We borrowed a lot of money which our officials loaned to European governments. Most of it we'll never get back. Might as well call it a cost.

Thinking about our debts because officials spent the money foolishly will never get us anywhere.

Remember that the staggering war debt exists; no need to worry over that. That and the government expenses must be paid. The constructive thing to do is to be sure next time that no one makes any profit from next war--and it is not likely to come.

Americans want to remember one thing, and that is, the government of the United States has no money to loan. The special arrangement by which European governments got money from our

government had no precedent and we hope it will never have a repetition. On the other hand it is a common thing for the citizens of one country to buy the bonds of another. That is practically what the present arrangement of the European difficulty amounts to. If the American people are wise they see that it is kept on that basis.

Some of the church folks are greatly worked up over the question of evolution, and the age of man. It seems to me, if I read the bible aright, that The Great Master concerned himself far more as to the kind of a life a man led than he did about the man's ancestors, whether monkeys or men. And from the appearance of things at this time the church and the world needs His view far more than it needs worry about Genesis and evolution.

It would seem about time that some attention was paid to the reckless driving in the business section of Newhall. The chief offenders, of course, are tourists, vacationists, and light trucks bound for other points. Our principal street is narrow, and when cars are parked each side of the street but a narrow lane, and into this cars will be driven at fifty miles an hour, and drivers often try to pass a car ahead, in the narrowest part. A traffic officer on duty a few weeks, and some jail sentences would help to make things safer.

THE ANTI-VENOM OUTFIT

SENSIBLE precaution is protection, especially in the wilderness.

Any person who goes into the mountains on a camping trip should equip himself with an "ANTI-VENOM" OUTFIT to be used in case of RATTLESNAKE or poisonous insect bite. It is a very effective antidote and will not fail, if used according to directions. For sale at Newhall Pharmacy \$2.50 each.

NEWHALL PHARMACY
Mrs. JULIA RIEDEL, Prop.

Summit and Thereabouts.

H. E. Johnson was in charge of Summit service the greater part of last week while the manager went to the city to secure the services of an excavator—the kind that starts the excavation in the mouth and comes out in the pocketbook.

Prof. L. C. Lockley, with his wife and son, were guests at the Summit, Sunday. Prof. Lockley is a member of the English department of the University of California, Southern Branch, and with Mrs. Lockley, co-author of an English composition text book entitled "Faulty Paragraphs."

Little Pat Mullen not having done anything out of the ordinary, we will not mention him this week.

T. Kornelissen, the Union Oil Company agent from Newhall, called at Summit last week with a second shipment of Red Line Graphite Grease.

The office of Summit Service has a new floor.

George T. Winterburn, head of the Art department of the Los Angeles Polytechnic high school, and his wife, who teaches history at Manual Arts, were among the

prominent people stopping at Summit Service last week.

Tujunga Moon Festival

TUJUNGA, August 12.—A water carnival that will feature exhibitions by star divers and swimmers from the Hollywood Athletic Club, under the direction of Clyde Swendson, swimming instructor, will be staged Sunday, August 31, at Tujunga as part of the Fourth Annual Moon Festival of the Tujungans, sponsored by Post 250, American Legion. Swendson has the best teams in the south for exhibition work and has agreed to arrange an exceptionally fine program for the Moon Festival. His roteges recently took part in a water meet at San Diego and acquitted themselves with credit. The same performers will appear at the outdoor plunge in Tujunga.

Nominations in the queen contest have been made and take interest in this feature of the coming festival is increasing by leaps and bounds. The lady who wins the popularity contest will receive a diamond ring and will be crowned Queen of the Verdugos at a coronation ball Labor Day at the outdoor dancing pavilion in the Garden of the Moon Park. The holder of the lucky voting coupon will receive a \$150 radio set. Each vote cast for a queen candidate entitles the voter to a chance on the radio set. A dozen of the prettiest girls in the Verdugo hills have already been nominated and the competition promises to be very keen.

When in Los Angeles stop at the Hotel Lee. Comfortable and quiet. Take ears going west on Fifth and Sixth streets. Hotel at 822 West Sixth.

Be sure your camp fire is dead; then bury it.

THE CIRCUIT RIDER

By MARY CAROLYN DAVIES

God tramps on thru the scouring rains,
God vaults into the saddle,
Rides alone past the dusty plains,
God's back bends to the paddle—
Cedar branches and sunlight thru!
And on, still on, speeds the lone canoe!

God rides out on His ancient quest;
Healing, saving, commanding.
Here in the savage, unknown West,
Settlement, cabin, landing—
Well they know the steady beat,
In the stillness, of God's horses' feet,

God leads to grace the pioneers,
Who walk each hour with danger;
Knows these grim men for his peers;
Gives his bread to the stranger—
Doing all that a neighbor can,
God rides still, a weary man.

God rides out! And finds three states:
Their scourger, their defender;
Guides their loves and tones their hates,
Leads them into splendor!
God—in the Circuit Rider's breast—
Once more, God built a world—Our West.

DRIVING the between Castaic and Sandberg's with only one light or with no lights at all is getting to be quite a popular outdoor sport. It is a menace that should be abated. We don't see any reason why the Ridge, one of the most dangerous roads in the county, should be neglected. It is safe to say that an average of 50 machines a night pass the National Forest Inn, carrying but one light. Other laws, such as speeding on curves and passing cars on blind curves, are carelessly disobeyed on many occasions. The people are paying for police protection on the highways and we think it's about time they were getting it, at night as well as during the day. Two motor cops, working north and south from Sandberg's do very effective work in the territory they patrol during the day. But they are not permanently stationed at Sandbergs, altho they should be. In addition, the Ridge needs cops at night, stationed either at the Inn or at Sandberg's. People who drive the Ridge, under the law would, we are sure, appreciate some action on this proposition by Captain Cannon, of the Sheriff's office.

A new addition to the National Forest Inn menagerie is Hop Lee, a Pekinese pup and brother to Pollyanna. Hop Lee is the property of Mr. and Mrs. Will Rose. It's a cinch that folks down in Culver City know how to do two things well, namely, raise Pekinese pups and make apple cider.

It looks like Sonoratown has moved up to the Ridge. Hundreds of Mexicans go by the Inn every day on their way to the San Joaquin valley to

It is claimed that there are 1000 peaches to every peach up in the Fresno district.

Guard Vaughn is now stationed at the Liebre camp of the Pan-American Oil company. Mr. Vaughn is a very capable forest fireman and his presence at Liebre means a more adequate protecting service for the Ridge. The camp at Liebre now numbers over a hundred men and is increasing in size every day. It is understood that the Pan-American will convert the present Red Rock trail, leading from the Ridge to Castiac canyon, into a standard gauge wagon road. This will be much appreciated by forest men in this district.

A number of the Edison boys, located at Sandberg's, together with some of the Sandberg prize peaches, attended the dance at Hughes Lake, August 16. Mr. and Mrs. Clarence Austin knows how to put on a dance so that every one has a real time. And the music is full o' pep. You bet!

The State Highway Commission is doing some good work on the Ridge in an effort to eliminate a number of dangerous blind curves.

The Theft Bureau of the Auto Club of Southern California, lists on an average of seven stolen cars a day. Many more cars are stolen which are not listed by the Club. Auto stealing seems to be lucrative pastime in California. A great many stolen cars are eventually recovered by various police officers and the thieves prose-

cut. However, there are also many cars that are never located following their disappearance.

The Forest Service has been extremely lenient with thoughtless and careless offenders of the law during the past few years. We think that any man who throws a lighted match, cigar or cigarette out of his car along the highway, should be arrested and fined. We also think that any one who builds a campfire inside a National Forest without a campfire permit, should be arrested and prosecuted. Everybody may rest assured that if the Forest Service does tighten up on these two classes of "mountain pests," that the tightening will be very severe.

Advertising signs of every description are prohibited inside the limits of any National Forest. (Politicians and tobacco manufacturers, please take notice). Fifty-three signs were recently removed from the Ridge Road division and destroyed.

Mint Canyon Juleps

Plenty of excitement reigned in the vicinity of Sierra Pelona Valley and Lang, when strange actions of an unknown man were reported to have been seen, and who seemed to elude all pursuers on his trail. Investigations will continue.

Mr and Mrs N. E. Ross and children, Betsy and Norman, Jr., visited for several days with friends at Lang, Sterling and Mint while enroute from Mrs Ross' parents, Mr and Mrs Loomis at Alder Creek, to Los Angeles. From there they will visit Mr Ross' relatives at Monrovia, and other relatives at Fullerton. Mr Ross is connected with the Pacific Borax Co. in Death Valley, and will return to that place by the first of September. Mr Hayhurst and his mother, of Sterling, accompanied them to Los Angeles.

Mr and Mrs Eddie Prickett and little daughter, Mrs Rosemary Mitchell and infant son, all of Long Beach, were week end visitors with the former's parents, Mr and Mrs Joseph Prickett, of Sterling.

Miss Mary Johnson, who has been visiting relatives and friends the past month, returned to Los Angeles last Tuesday morning.

Little Miss Moneta Gardner, daughter of Mr and Mrs Earl Gardner, was accidentally shot in the hand by her little brother, who had a BB rifle. The little lady's hand was dressed by a local physician, and she is getting along nicely at her home in Mint.

Mint Canyon's new school is now ready for a big dance. According to promise, one will be given on September 13, Saturday night, to which everyone is invited. The spacious floor, 24x40 will be in shape to assure the guests an enjoyable evening. Dorris Johnson will manipulate the ivories, and everybody knows Dorris. This will be a benefit dance, and the proceeds will go for school equipment. Remember the date, Sept 13.

Mr and Mrs Ralph Long and children, Isabell and Delmar, of Stockton, visited for a day or two with the former's sister and family, Mrs Glen Wright.

Mrs William Heins is visiting

for several days in Los Angeles with friends.

Would Solve Power Trouble?

Since the opening of the conservation campaign in charge of Power Supervisor H. G. Butler, one mystery has deepened with the passing days. Where was Rainmaker Hatfield with his wizard chemicals that he says never—or—almost never—fail to coax from an inscrutable Providence what the prayers of the most devout, seem unable to do?

Hatfield for some strange reason, still withholds his benison, but a rival with all the confidence of the more famous sky magician has indicated in a letter to Mr. Butler that the rationing of "juice" need last only so long as it takes for the magician to get on the job.

The letter is from W. H. Elliget, a business man of high standing in Corcoran, California, who is speaking for the rainmaker. The latter is remaining modestly in the background for the present. Says his sponsor:

"This party knows more about weather and the action of the moisture arrangement than all the U. S. weather observers combined.

"It is possible, by using Huntington Lake as a base and taking advantage of the moisture clouds that arrange themselves over the Sierras, caused by the intense desert heat, to attract the gulf storms that ordinarily move in a northerly direction.

"This is not guess work: If conditions are right we will be able to place sufficient water in your watershed to obtain the required amount.

"We would be willing to sign a contract setting forth the conditions and start work immediately. If you don't get the water, you are out nothing. If we are successful you pay us a nominal sum."

Mr. Butler has turned the offer over to the Edison Company, which owns Huntington Lake. Without a doubt it would erect an imposing statute to any rainmaker who at this moment should bring the liquid manna from heaven.

Perpetual motion inventors, theorists who suggest that plenty of water might be drawn up out of the ocean, and other resourceful parties have written the power supervisor.

"Alas, his prerogatives are limited, and he is forced to confine his energies to seeing that a couple of million people waste none of the limited supply of juice that is known to be available until the late fall when enough auxiliary steam plants will be installed to put an end to the necessity for power rations.

Mr. Swiftly came down the Ridge Route, Round the curves made his limousine scoot; It jumped—in brush brown, A thousand feet down He's waiting for Gabriel to toot.

And just think of it! Bob La Follette was so dog gone flabbergasted when he accidentally discovered that he had been nominated for president, that he couldn't talk but two hours.

Some way this vacation business seems to remind me of an old debating question, which read, "Resolved: That anticipation is better than realization."

A Newhall man is said to have come home late from a little business session with his bootlegger, and put his pants to bed and threw himself carelessly over his chair.

My lights burned out the other night on the way to town. I hurried for the garage, scared to death, and I'll bet twenty fellows yelled as me, apparently thinking I was driving that way because I wanted to.

The Fords have no monopoly on signs. A man and woman went thru town with a horse and buggy the other evening. On the side of the buggy it stated: "Bakersfield to San Diego 'As is.'" And on the rear was the pleading little sentence, "Excuse our dust."

And another car, also not an F. said, "Just married; another candidate for the asylum or the police." And the bride was driving while her new husband was certainly holding her to it.

Loeb has fits but he is the brightest boy, with the mentality of a child of ten, and Leopold is a strong weak mind that proves him to be incapable of injuring a fly unless the other man put him up to it. Both are bright lawyers who could make their defense better than Darrow, but they are simply mental incompetents. What? You Don't know what I'm talking about? All right; read the Loeb-Leopold trial proceeding, and you'll know less.

That fellow who invented the saying, "It's never too late to mend," ought to see the inner tube I wrecked with a flat tire the other morning.

A few first-class hangings might operate as a sort of cure for the epidemic of killing insanity we read of in murder trials.

Big reward for the politician who admits his opponent is also qualified to fill the office.

Don't forget to vote next Tuesday.

Yes, we are all going to the dance Saturday nite August 30, at Hap-a-lan Hall to trip the light fantastic toe to the syncopation of Newhall's first ten piece orchestra.

Mr and Mrs Markland motored to Ventura Sunday.

Mrs C Kindig is on the jury in Los Angeles serving for three months.

Mrs G S Wilson is spending a few days in Pasadena visiting friends.

Clarence Garns of Oakland is visiting his brother-in-law, Fielding S Wood.

Mr and Mrs O W Bercau returned Tuesday from a motor trip to Portland. They were accompanied on the trip by Mr and Mrs Coyle of Newhall.

Edmund Culver of Haskell's garage, motored to Fullerton Tuesday morning.

Mr and Mrs Don Barnett returned from Elsinore, where they were visiting relatives last week.

California Highway

That California will have to maintain full speed ahead on its highway program is indicated by the biennial traffic census taken in June. This indicates an increase of approximately 47 per cent over the figures for 1922, the date of the last census. Curiously enough this is equal to the increase that was recorded for the period between 1920 and 1922 and shows that the traffic expansion is keeping pace with the growth in the number of motor vehicles.

The result of the two biennial checks on traffic in all parts of the state appear to indicate that there has been a constant annual increase in the use of the roads since 1920. If the future is to be judged by the past, similar growth will be recorded in 1926, making it imperative that every possible activity be employed in maintaining existing highways, widening those that are overburdened with traffic, and providing new roads to relieve the more congested sections.

It is pointed out by authorities on highway construction that the process is a continuous job, as old roads are constantly in need of repairs and the rapid increase in vehicles using the roads makes pressing need for additional outlays.

The Automobile Club of Southern California, the State Highway Commission and various boards of supervisors after thorough investigation are agreed with the special committee appointed by the governor that new methods of financing highway construction must be adopted. It is generally conceded that plans must be devised that will be equitable and furnish a steady and ample source of

revenue to provide for a systematic and adequate highway development program.

**Got Bullet in Chest
but Saved His Friend**

A duel was fought in a forest on the outskirts of Berlin recently between two men more than forty years old who had been lifelong friends, according to a Berlin letter in the Continental edition of the London Mail.

They are both bachelors, but one, a merry squire, fell in love with a pretty girl of twenty-one and was determined to marry her. The other, a wealthy business man, was certain the pretty girl would make his friend unhappy. He noticed, for instance, that when the three of them were in restaurants the pretty girl returned the admiring glances of young men at other tables.

Love is blind and the squire saw nothing of this. His friend, not understanding the danger of interfering in other people's love affairs, hit on a plan to save him. He sent the pretty girl a love letter inviting her to meet him and signed it with a fictitious name. Two love letters had no effect, but the third brought that naughty girl to the rendezvous, and he was there to see her arrive. He went home chuckling and told her how he had tricked her and warned her to leave his friend alone.

But she, with that touch of genius which deceives mere men every time, went straight off to her squire with tears in her eyes and the letters in her hand.

The result was the duel and a bullet in the chest of the kind but blundering friend. The story has, however, a highly moral ending. Overcome with grief at the sight of his friend bleeding on the ground, the squire agreed to have nothing more to do with the pretty girl.
